

## A bunch of New entrepreneur starts the mission

Nominated by Bangladesh Engineering Industries Owners Association (BEIOA) started their journey for entrepreneurship development. They have selected automatic coffee and tea machine at low cost by indigenous technology through research and development. They are doing master trainer course also.

## TTI Research and Development: Coffee Vending Machine

Every year 20000 piceses of automatic Coffee vending Machine are being imported from foreign. Average price is TK. 25000. More over change parts cost huge amount of money. Research and development is going on by TTI in association with local light engineering sector alone with new entrepreneur of TTI incubation center. After R & D the technology will be transferred to them.

## Foreign Reliant Job solution to save foreign currency under process

Pump house of BWDB Pabna  
Overhauling instead of Japan

Hydraulic system problem of GK  
project pump1 insted of Japan

# Incubation Center for Light Engineering

1. 30 companies are being allotted for Techno-Entrepreneur business
2. Most of them are B. Sc. engineers and Light Engineering background
3. Fields are machinery spare parts and capital machinery and others
4. Including some engineers of Startup

Seminar of TTI at CIRDP

National Robot making competition at Chennel I

Mutual cooperation seminar with BUET

View exchange meeting with stackholders

Customize Training	Online 4 classes on 19th and 20th day of every month for SSC and HSC level
Regular Training	Online initial Training going on for the level of Diploma. Practical training later on. Total duration 3 months
Master Trainer Training	Hands on training for Master Trainer specially for B. Sc. engineer going on. Total duration 6 months

Subject: Modern machining CAD/CAM, Hydraulics, Mechatronics

JOB FAIR	July 2020: 18.07.20, District-Gopalgong, Appointment- 12
	August 2020: 30.08.20, District-Gopalgong, Jamalpur Appointment- 36
	September 2020: 23.09.20, District- Jamalpur, Appointment Demand- 98
	October 2020: 25.10.20, District Mymensingh, Appointment Demand - 250

**TTI Common Facility Centre  
5 Axis Vertical Machining Center-**  
Costly precision CNC machine for complex international standard spare parts manufacture  
Any private SME can take service from TTI in retail price
